Tough Love >>>

I don't make a habit of roughhousing with my computer, but Panasonic's Toughbook could handle the abuse. The world's first industrial-strength tablet PC, this 4.4-pounder has a 10.4-inch color display and a 40-gigabyte hard drive sealed inside a rugged body that offers protection from drop shock, vibration, water, dust, heat, cold, and fits of personal aggression. **Panasonic Toughbook 18 Tablet:** \$3,200; www.panasonic.com; 800-662-3537.
